

My IndiFuels Private Limited

Requirement of Specialized Vendors (With Material)

For Petrol & Diesel Retail Outlet Projects

My IndiFuels Private Limited, a growing energy and fuel retail company in India, invites applications from **experienced, technically competent, and material-inclusive specialized vendors** for its **ongoing and upcoming Petrol & Diesel Retail Outlet projects**.

Scope of Work

The company requires vendors capable of **complete supply, installation, testing, and commissioning** for the following specialized works:

1. Underground Petrol / Diesel Tank Installation

Supply and installation of underground petrol and diesel storage tanks

Tank foundation, anchoring, leveling, and protective works

Underground piping, valves, fittings, and allied accessories

Leak testing, calibration, and compliance with safety norms

2. Fuel Dispenser Installation

Supply and installation of fuel dispenser machines

Electrical and mechanical connections

Hoses, nozzles, pulsers, and related accessories

Testing, commissioning, and trial run

3. Electrical Pole & Lighting Works

Supply and installation of 12-meter or company-approved height poles

LED flood lights, canopy lighting, and forecourt lighting

Cable laying, earthing, panels, and electrical safety works

Full compliance with electrical safety standards

4. Totem Structure Supply & Installation

Supply of retail outlet totem structure

Foundation construction, erection, and fixing

Electrical connections, lighting, and display systems

Installation of branding panels

5. Branding & Signage Works

Canopy branding

Forecourt signage

Directional, safety, and information signboards

Complete visual branding of the retail outlet

Material Standards & Quality Policy

All works shall be executed **on a With Material basis**

Detailed material specifications and technical checklists shall be issued by the company

All materials used must strictly conform to **company-approved specifications and applicable industry standards**

Use of any material without prior company approval shall not be permitted

Vendor Eligibility Criteria

proven experience in the relevant scope of work

Valid GST registration and PAN

Availability of trained and experienced technical manpower

Compliance with safety, quality, and statutory norms

Interview & Selection Process

Interested vendors must submit an **online application / registration**

Shortlisted vendors will be invited for a **technical interview at the company office or project site**

Vendors must present details of past experience, technical capability, and work portfolio during the interview

Important Legal Notice

Vendor registration or invitation for interview shall not be construed as a guarantee of work order. Final selection shall be subject to technical evaluation, material compliance, and internal approval of the company. My IndiFuels Private Limited reserves the right to accept or reject any application, in part or in full, without assigning any reason.
